Attention: Mr. Chad McCaw

Re: TMX Anchor Loop Pipeline Project

Dear Sir,

We wish to take this opportunity to thank McCaw's Drilling & Blasting Ltd. for the services that you performed in assisting North American Pipeline Inc. in the construction of the TMX Anchor Loop Pipeline Project.

This was an extremely difficult project with the pipeline being routed through Jasper National Park in Alberta and Mount Robson Provincial Park in British Columbia. The mountainous terrain and the sensitive environment of this world heritage site made any work through this area extremely challenging. Your company provided drilling, blasting and other related services to this project in a highly professional and efficient manner. Your safety record on this project was excellent. We greatly appreciated the services that you provided to us on this project and look forward to the opportunity of working with you again in the near future.

Yours truly,
North American Pipeline Inc.

John Wainwright, P.Eng.
Project Manager
